ABOUT ME

Frontend Developer with 2 years and 2 months of experience seeking a role to leverage strong React, Redux, HTML, CSS, Material UI, and Tailwind CSS skills. Proven ability to develop clean, scalable code for Single Page Applications (SPAs) and document technical specifications. Eager to contribute to achieving organizational goals.

WORK EXPERIENCE

August 2022- Present

Test Yantra Software Solutions pvt ltd

Last Project

Name: Educational Application

Roles and Responsibility:

- Building responsive UI and forms with functionality.
- I was involved to consume data from API with the help of RTK query and display based on requirement.
- I was involved in designing the authentication modules for different roles.
- Used third party library like react-carsoles, react-icons, Aos and Countup.
